Raymond Shaw, Earl Briggs, Ruth Stone, Arthur Hayden, Albert Grant, Stanley Whitney, Chester Pratt, Shirley Decker, Mildred Chandler, Ava Grant, Frankie Goffman, Mildred Chapman, Miss Miller, Ralph Smith, Marjorie Powers, Stevens Thomas.

M. A. Millett has built three snow rollers to be used on the roads of Paris this winter—that is, if we have any snow. These rollers will be located centrally in the three districts of the town. The roller used last winter was satisfactory in its operation, and the snowers that the new ones will be used throughout the town, and the old roller formerly in use will go into the discard.

The regular locomotive on the Norway Branch is having a lot of indignation and all the line on an enforced vacation, and locomotive 412 from the main line is taking her place. This engine is not tied up for the branch work—that is, it has no second locomotive on the road, and the other engine, so the cannot proceed the train on the return trip from Norway. On the trip the train looks in the engine with what lights there are on the rear platform.

Taylor, the dog show man, lost one of his dogs while showing in this vicinity. He did not find it. This dog, Toby, according to his owner, had made quite a reputation on the stage, upon which he appeared for the last eight years. He had shown in about every town from the Atlantic to the Pacific coast, and had made two tours of the East. He had been a member of such well known canine companies as Barnum & Bailey, Ringling Brothers and Frank A. Bailey.

Miss Arline Bartley has been visiting her old home in Madison, and while there was given a shower in honor of her approaching marriage to Ralph Kenison of Madison by twenty of her young lady friends. After a series of games and stunts she was given an evening and told to follow the directions on the inside. She did so and after traveling the house came to a basket laden with miscellaneous gifts. Dainty refreshments were served by the hostess, Miss Mildred Kenison.

The train in regard to Thomas A. Edison and the Grand Trunk Railway in the week's Democrat awakened memories in the mind of Otis E. Dunham, the veteran telegrapher at the Grand Trunk station. It was not known to the editor of the paper that Mr. Edison was as newsworthy on this end of the island, but Mr. Dunham says he did. He was on the train that was wrecked at the three o'clock afternoon train out of Portland and the forenoon train back, well acquainted with him at that time.

The attention of the writer was recently called to a steel mail car standing at this station, which had been put out of use. Most of the old wooden mail cars have been taken from all of the trains in the area.

This has been because of a law which passed Congress in 1918, prohibiting the use of steel mail cars. Before the law passed there was a high rate of fire loss among the mail cars of the Grand Trunk. In an exposed position in accidents, last year there were four killed and twenty-one seriously injured among the mail cars. It is said there are now three steel mail cars in operation to replace the old ones. The steel mail cars are either all steel or have an steel undercarriage.

Holders of savings stamps can now have them redeemed at the post office in the village, or, in fact, any post office. These savings stamps were issued in 1912 and 1913 and mature in January, 1923.

The holders are willing to exchange them for treasury savings certificates. In fact, holders are urged to make the exchange this month, as the bookkeeping is being closed. These new securities which the government has issued in exchange for the old ones, mature in five years from date of issue, but are three per cent interest, but will mature at four per cent, with interest compounded semi-annually. The certificates are issued in \$5, \$10, \$20, \$50, \$100, \$500, and \$1000. The first may be purchased for \$2.50, the second for \$5.00 and the third for \$10.00. Of course if the holders wish cash for their stamps, they must wait until the January 1st next.
